

DOROTHY DRAPER (1889-1969)

Group of moldings in silvered glass.
Custom made for the Hampshire House,
Central Park South, New York, 1937.

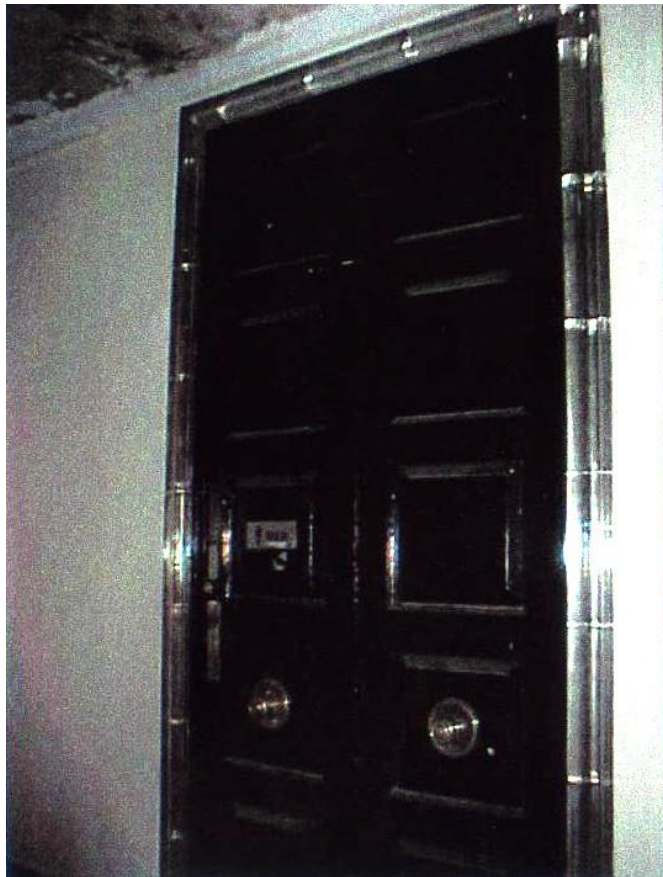

Measurements

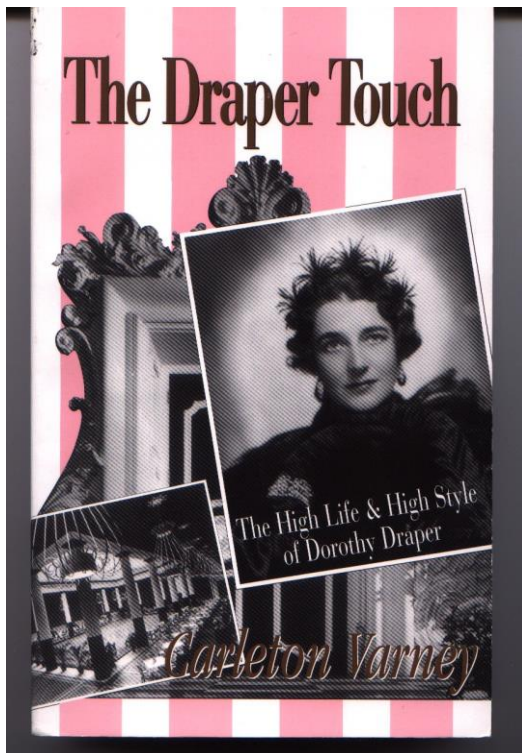

Height: 6 ½”

Depth: 2”

Width: 18”

(Total equals 60 linear feet)

The Hampshire House arcade to the main Dining Room is a classic Dorothy Draper design in the Baroque look. Ceiling height doors are lacquered in black-berry with deeply cut white shaded mouldings. Door frames are crystal bolelection moulding. Grinling Gibbons plaster decorations appear on the walls and ceiling. Mouldings in the lobby were removed in the 1970's when the main lobby's decorations were "improved" by the co-operative board.
