TRANSPARENT ATELIER

Lennox Grand Double Tier Chandelier

From a clean round canopy, a column of oil-rubbed bronze descends with frets of subtly veined alabaster. Two tiers of cantilevered radial arms branch from orbs, and a cone of alabaster forms the bottom finial. In the base of each triptych oculus sits an obscured bulb, offering decadent illumination through panes of sunset-bronze glass, translucent alabaster, and an open aperture lined with brass.
